“ I will be thinking of you all today and am sorry I cannot attend the service for Tom... I'm thinking of so many times when Tom's positive attitude at any event just kept people going and Judy's quiet and never-ending support and love for everyone inspired so many to push a little farther... Amanda and Kevin... you are your parents' finest accomplishments! Not to mention a few great camping stories, huh? :) Find comfort in the good times... and what an incredible job you did for both parents in their health battles! Take care.

“ I will remember fondly of the times when I was at Mesa Community college and Tom and Judy and family took us all in as extended families and helped us fall in love with Arizona. Both he and Judy made us feel so welcome and less lonely here in a new country and we will never forget that. Through the years, I was inspired by how Tom and Judy supported each other through thick and thin their love for each other and the children (and extended families). I am honored to have met him and the family.
